#with
Lightness

FEET LOVE LEGERO.

Lightness, timelessly beautiful design, the highest quality and the best materials – always focused on people. Made with heart and soul by shoemakers: that's what distinguishes legeros and makes them the favourite shoes of every woman's feet. For every occasion, all year round.

What legero does everything to take care of its customers' feet, to contribute to their well-being and to give them a unique feeling of lightness.

LOVE IS TANGIBLE.

To meet the high demands of our wearers, every legero shoe is carefully made using innovative production techniques and particularly lightweight materials, and then tested multiple times. Lightness, comfort and sustainability are particularly important criteria that every shoe in a legero collection must fulfil. From the very first sketch, a target weight and a maximum carbon footprint is defined for each model in the collection in order to develop a shoe that is as light as possible. legero shoes always feature sophisticated functions. Thus, every legero shoe offers optimal cushioning properties, an excellent climate for the foot all day long, and practical feel-good features such as easy slip on and easy slip off. That accounts for the incomparably light „legero feeling“ that legero customers experience with every step. Which is how, every day, they stand with lightness at every opportunity in life.

FACTS AND FIGURES

- Around **850.000 pairs** sold annually
- **Awards** in the categories consumer satisfaction, price/performance & quality in the ÖGVS Austrian Brand Monitor 2023
- Renowned eco label **Blue Angel** for Fresh & Tanaro models
- The legero Eco Agenda sets out a large number of sustainability measures along the entire value chain.

Whether chic, sportiv or casual – legero shoes bridge the gap perfectly and go with every day and very special things.
